Selamat datang! Welcome to Term 1 Indonesian!

The Prep grades will begin to learn about the Indonesian language and culture through exposure to relevant activities and games, as well as various speaking and listening activities. In Term 1 they will learn how to introduce themselves and how to greet others, as well as learning about the Indonesian art of batik.

The Grade 1 students will build on their prior knowledge of Indonesia by learning other ways to express how they feel. They will also learn how to name their body parts in Indonesian, as well as learning about the islands of Indonesia.

Students will practise their Indonesian by singing traditional children’s songs, play Indonesian games and use resources such as Indonesian videos and stories to reinforce concepts learnt in class.
